Taranveer Anand

Cleveland, OH | +1(502) 356-1099 | taranveeranand26@gmail.com | GitHub | LinkedIn | Portfolio

Education

Case Western Reserve University Cleveland, OH

Bachelor of Science in Computer Science, Minor in FinTech *May 2026*

- **Relevant Coursework:** Machine Learning, Artificial Intelligence, Algorithms, Operating Systems, Database Systems, Computer Architecture, High Performance Computing, Probability & Statistics

Experience

Software Engineer Intern Sept. 2026 – Present

Pulse Imaging | Python, FastAPI, React, TypeScript, Electron, Cornerstone3D

- Reduced calcium-statistics computation time by **93%** (**2,994 ms to 199 ms**) on a 512×512×300 CT volume by consolidating repeated scans and sharing 3D connected-component analysis.
- Implemented **API authentication**, request limits, and controlled file imports; resolved backend startup and shutdown defects in packaged desktop releases.
- Corrected **Agatston scoring** to weight individual lesions by their peak density, resolving score overestimation caused by a shared artery-level weight.

Founder June 2025 – Aug. 2025

Aionix.dev

- Built **n8n workflows**, chatbots, and voice agents for U.S. companies, integrating APIs, CRMs, email, and LinkedIn to automate lead intake, outreach, and follow-up.

Database Developer Intern Sept. 2022 – Dec. 2022

Guru Amardass Private Limited

- Reduced data processing time by **40%** through **Python** migration scripts and **SQL** query optimization; built data pipelines and dashboards for ERP reporting.

Entrepreneurship

Co-Founder & CEO July 2026 – Present

Heron | Campaign pricing, prediction markets, customer discovery

- Co-founded a platform that lets merchants offer **customer refunds when a specified public event occurs**, with payout risk priced and hedged through **prediction markets**.
- Developed a **campaign pricing calculator** that converts attendance, refund limits, and merchant costs into quotes, projected profit, and comparisons with standard discounts.
- Contacted **300 sports bar owners** and held **20 discovery meetings**; secured a verbal pilot commitment and built a prospect list of **949 businesses across 23 states**.

Co-Founder & CTO March 2026 – Present

Shipped.one | Electron, React, TypeScript, PostgreSQL, Redis

- Built an **Electron desktop application** that matches users to roles, tailors resumes, generates portfolio projects, and submits applications across applicant tracking systems through **browser automation**.
- Designed posting validation and application review workflows; supported **50 concurrent users** with application tracking, email monitoring, billing, and live progress updates.

Open Source

Contributor | *C, Python, TypeScript, Java* July 2026 – Present

- Contributed **13 merged pull requests across nine projects**, including libgit2, NLTK, TanStack Table, Poetry, and JavaParser. Fixed Git index conflicts, Unicode tokenization, dependency selection, and locale-dependent parsing with regression tests.

Awards & Projects

Three-Time Hackathon Winner | *Including OSU Lovable Hackathon and CaseHacks* 2025

- Won OSU Lovable with **BitLens**, a repository documentation tool, and CaseHacks with ***PosePal***, an AI photo-discovery app.

SeeCare | **W25 Best Senior Project Award** | *FastAPI, MongoDB, AWS Rekognition, DeepFace* Sept. – Dec. 2025

- Built a mobile memory aid for dementia support, combining **facial recognition**, wake-word conversation capture, speaker diarization, and generated summaries to help users recall people and prior interactions.

HiveMind | *Next.js, TypeScript, FastAPI, LangChain/LangGraph, OpenRouter, WebSockets* Jan 2026

- Built a **multi-agent prediction-market simulation** where agents research real-world signals and trade in automated markets, with a live dashboard for activity and consensus forecasts.

Skills

Languages: Python, TypeScript, JavaScript, Java, C/C++, Rust, SQL, Bash
AI/Data: LLM Orchestration, RAG, Embeddings, Multi-Agent Systems, LangChain/LangGraph, PyTorch, Scikit-learn, NumPy, OpenCV
Platforms: FastAPI, Flask, React, Next.js, Electron, PostgreSQL, MongoDB, Redis, Supabase, Docker, AWS, Azure, Linux, n8n
